

What is the Most powerful Stun Gun?

I recently wanted to know what is one of the most powerful stun guns on the market today.

After making a few calls, we agreed that 1.2 million volt Double Trouble Stun Gun qualifies. It has two prongs that each deliver a shocking amount of power. There is no doubt that this powerful stun gun will stop any attack.

This unique patented item is in the ZAP Stun Gun Family and is built in a horseshoe shape with a with a hand strap. You can't go wrong with this one... as it ranks as the most powerful stun gun we have ever seen!

At 1,200,000 Volts, it is the Strongest Stun Gun Available!!!
