

A Womens Self Defense

What is a woman's self defense in a violent society? I recently saw a staggering number: 17% of women can expect to be raped in their lifetime. In 2004, there were 1 rape/sexual assault, 2 assaults with injury and 2 robberies for every 1000 people. One in five chance you are next.

Every two and a half minutes a women is sexually assaulted in the US. Most go unreported due to embarrassment, shock, or fear.

So.. what products are there that are specific for a womans self defense? Stun guns and pepper spray are on the top of the list as a non lethal solution that will stop the attacker instantly.

Lipstick Pepper Spray

Blast Knuckles Stun Gun 900,000 volts

Cell Phone Stun Gun 1,000,000 volts
